To the Insurance Public

of the Territory of Hawaii

Having been appointed to the position of District Superintendent, for the Territory of Hawaii, by the Mutual Life Insurance Company of New York, we have opened offices in Honolulu, and will take formal charge of the Company's business March first, after which date all payments of Premium by policy holders, the payment of Death Claims and Matured Endowments are to be made at the Company's office at 932 and 938 Fort street.

The modern contracts issued by the Mutual Life, offer larger guarantees than do those of other companies.

THE COMPANY FINANCIALLY UNASSAILABLE.

Remember that, with all the reckless talk in the newspapers Remember that, with all the reckless talk in the newspapers about syndicates and salaries and subsidiary companies, the securities of the Mutual Life have not been criticised nor their perfect safety questioned. The investments of the Company were an open book in the hands of the Investigating Committee; every loan, every bond, every security of any description was before them—four hundred and fifty millions and more; and not a single item was discredited, and not a single investment of any sort was classed as doubtful.

classed as doubtful.

As ever, the Mutual Life is still the strongest financial institution in the world, with a reserve \$36,000,000 larger than that of any other existing company, and with a contingent guarantee fund, or accumulated profits, of \$75,000,000 in excess of its legal liabilities.

It is still true, as it has always been, that the Mutual Life has paid more TO policyholders, and holds more today FOR policyholders than any other company in the world. Nearly seven hundred millions to date has the Company disbursed to its members and their beneficiaries, making, with what it atill holds for them, nearly one hundred millions more than it has received from them.

You are cordially invited to examine our contracts and satisfy yourself that we Guarantee more in insurance protection to your family and estate and to return more in cash as an investment for your old age than do other companies.

W. A. WANN,

District Superintendent

Office with Trent & Co., 932 and 938 Fort St, Honolulu, T. H.

Difficulty

promised as a result of the fight be-tween the planters and emigration agents, and George D. Gear, attorney for the agents, declares there is a con-spiracy formed to unjustly persecute the emigration agents. Two cases in the Police Court today went over till

"There are a great many people in-volved in this conspiracy," said Mr Gear in an interview this morning, "and their identity will be brought out later. They are going to try to libel the Olympia when she arrives, but that effort will fail, and she depart from this port with a full load of Japanese laborers. They will be unable to prevent it."

The case of Tanabashi, who was recently arrested for operating as an agent without a license, came up for a hearing this morning in the Police Court, and F. E. Thompson appeared as a prosecutor, apparently employed by the planters for that purpose, Upon his request the case was late over on his request the case was laid over until Saturday. T. Haga, a licensed emigration agent,

was before the Police Court this morn-ing on a charge of putting more than fifteen people in his lodging house, fifteen being the number he is permitted by law to have. Attorney Thompson appeared as prosecutor in this case also, and this is taken as evidence oy \$67.80 per ton. the opposition that the fight against Haga is to hamper him in his work of securing emigrants to be sent to Se-attle. Judge Gear is defending Haga, and by mutual consent the case was postponed until Saturday, also.

As proof of his assertion that per sons are conspiring against the agents. Mr. Gear states that an auto was furnished the police to hunt down the agents at Walalua. The auto, he de-clares was not furnished by the County. When the Olympia arrives to take, away her load of Japs for Seattle, exciting events are expected to take 912 FORT ST.
